INVESTORS · TOM · JEROD · JUSTIN · GO-TO-MARKET STRATEGY

Go-to-Market Strategy

COMPLY

For investors and the team — plain plan for who we sell to, how we sell, what we run, and what we do in the next 90 days.

Draw review for the firms banks already trust · Humans still decide

AGENDA · SHARE WITH INVESTORS · ALIGN THE TEAM

The plain path

1 · The market
How big · why now

2 · Who we sell to
Consultants first · then developers · lenders last

3 · What we say
The pain · the walkthrough · the pilot

4 · How we sell
LinkedIn · Email · Social · SEO

5 · Ads & messages
Examples we will actually run

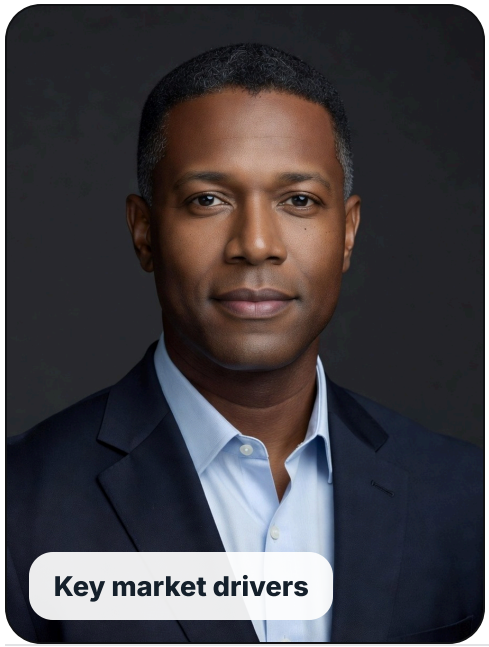

6 · Next 90 days
Who does what · how we keep score

Short on purpose — so the room can align and leave with a clear to-do list.

The market

How big the opportunity is · who pays · why we start with consultants.

A strong market.
A clear opportunity.

C&D

CONSTRUCTION LOANS

~$450B+

U.S. bank construction & land-development loans outstanding.

DEALS

ACTIVE DRAW DEALS

~15–40k

Working band of financed commercial projects in motion (labeled).

FEE

COMPLY PRICE

$300–600

Per project / month → $3.6k–$7.2k per project / year.

Hidden rival isn't only Rabbet — it's **email + Excel** on the monthly package desk.

TAM · OWNER MATH

Commercial deals × $300–$600 / mo

Total addressable (ARR)

~$90–180M

Mid · ~25k deals × $300–$600/mo

Band ~$50–290M if 15k–40k deals at full price range. Ceiling if every draw-monitored commercial job paid COMPLY.

What we chase now

- **SOM:** $3M ARR path ≈ 100–125 firms × ~$24k/yr
- **Near-term:** 1–5 live pilots — not TAM
- **Pilot fee:** ~$300 / project / month
- **Full (working):** ~$300–$600 / project / month

WHO WE SELL TO

Consultants open the door

70%
Marcus · Consultant
PRIMARY

Easiest in. One firm onboards **many** lender & developer deals they already work.

20%
Jordan · Developer
SECONDARY

Ton of demand — faster funded draws, keep up with the GC. Real volume.

10%
Elena · Lender
THIRD · not ideal outbound

They have their own stack. Can become clients later — usually won't buy COMPLY direct.

Wedge vs Rabbet

Rabbet runs the loan platform and bills developers hard. We help the firm the bank already hired review draws faster — start on 1–2 live jobs. **Humans still decide.**

What we say

The headache, the short walkthrough, then a pilot on real loans.

MESSAGE · MOTION

One ladder. Four channels.

Primary headache

Endless monthly paperwork + chase — inbox scavenger hunt, bounce/revision loops, still need a bank-ready call.

Proof lines: ~14-day draws · ~62% packages need revision · CLEAR / WATCH / DEFICIENCY

Motion

LinkedIn connect → short note → email → newsletter → founder posts → **20-min redacted package walkthrough** → pilot on comply.capital

Tom + Jerod both on LinkedIn via **Reply.io**. CMAA warm track stays as-is; launch **non-CMAA** sequences for everyone else.

How we sell

LinkedIn, email, social, and SEO — color-coded so the plan stays clear.

HOW WE SELL · COLOR KEY

When you see the color, you know the lane

LinkedIn **Roadmap blue**

Reply.io outbound · gift walkthrough ads · Tom/Jerod connects & posts. Primary consultant set.

Email **Roadmap lavender**

Apollo Fit A / non-CMAA sequences · bumps · monthly newsletter.

Social **Roadmap green**

Founder posts 2–3×/week · visual creatives · YouTube clips.

SEO **Roadmap ice blue**

comply.capital 8-pack · supports outbound, not the tip of the spear.

Same legend as the 12-month roadmap: **Pilots** **LinkedIn** **Social** **Email** **SEO**

CHANNEL · LINKEDIN LINKEDIN BLUE

Primary engine

Implement

- Reply.io: Tom + Jerod · 15–25 ICP connects/week
- Same-day accept follow-up
- 2–3 founder posts/week (split)
- Gift walkthrough ads ($100 after call)
- Consultant video: youtu.be/0hGYOu-e4r4

Do not

- Lead with long video cold
- Blend developer/lender copy into consultant lists
- Rebuild CMAA sequences (already running)

CHANNEL · EMAIL EMAIL

Apollo + nurture

Implement

- Non-CMAA Fit A sequences (Email 1 + bump)
- ~25–40 emails/week volume floor
- Monthly newsletter with pilot CTA
- Video as soft bump, not first line

CTA forever

20-min walkthrough on one redacted package → pilot 1–2 live loans on **comply.capital**

CHANNEL · SOCIAL SOCIAL

Always-on proof

Implement

- Pain posts (inbox ≠ draw process)
- Visual ads: endless paperwork / one system
- 15–30s hooks → full YouTube
- Comment → DM walkthrough path

YouTube by persona

- **Consultants:** youtu.be/0hGYOu-e4r4
- **Developers:** youtu.be/1T4cNzuUNbA
- **Lenders:** youtu.be/DdQq1UwGxHk (light use)

CHANNEL · SEO SEO

Support the outbound spear

Implement

8-piece content machine on **comply.capital** — pain words consultants search (draw package, G702, lien waiver, monitoring). Embed persona videos. Not paid tip-of-spear.

SAMPLE COPY · NON-CMAA LINKEDIN EMAIL

Marcus sequences to load

CMAA already running — use this set for cold / network / Apollo.

LINKEDIN CONNECT

Hey {{FirstName}} — I work with construction consultants who run monthly draw / pay-app review for lenders. Would be good to connect.

LINKEDIN AFTER ACCEPT

Thanks for connecting, {{FirstName}}!

We built COMPLY for firms doing monthly construction loan / draw review — pay apps, lien waivers, bank-ready packages.

If useful: 20-min walkthrough on one redacted package, then a pilot on 1–2 live loans.
https://comply.capital

EMAIL 1

Subject: Monthly draw review at {{Company}}

Hi {{FirstName}}, I work with lender's construction consultants. Most firms we talk to are buried in G702/G703 packages, waiver chases, and email threads — and still need a defensible recommendation to the lender.

Worth 20 minutes on one redacted package?
https://comply.capital · Tom · COMPLY

Ads & messages

Real examples we will run — image text only (no double overlay).

LinkedIn · Consultant

Ad 1

CAPTION

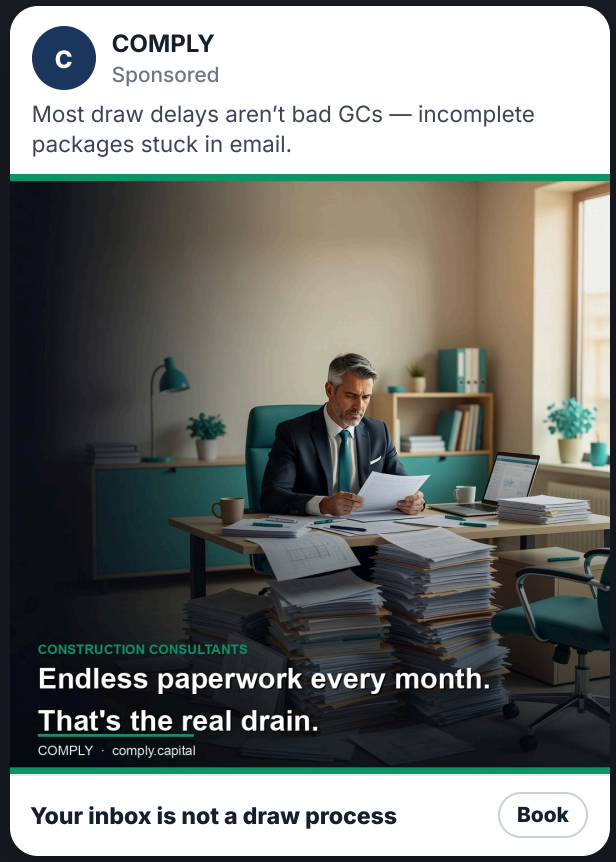

Most construction draw delays aren’t “bad GCs.” They’re incomplete packages stuck in email. If you run monitoring for lenders, what’s still stuck?

HEADLINE

Your inbox is not a draw process

BUTTON

BOOK WALKTHROUGH

Social · creative

Ad 2

CAPTION

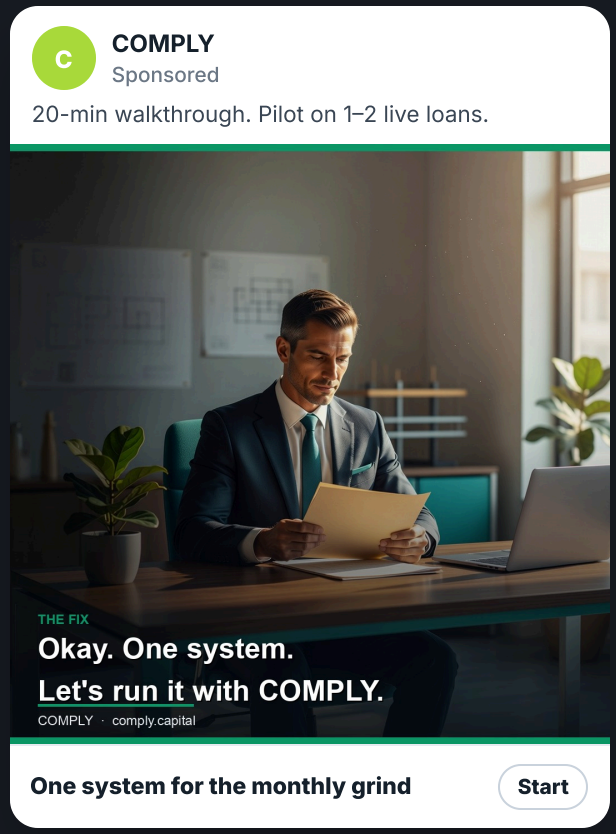

We built COMPLY for lender-side construction consultants. 20 minutes on one redacted package. Pilot on 1–2 live loans. Humans still decide.

HEADLINE

One system for the monthly grind

BUTTON

START PILOT

Lender · 10% · third

Not ideal outbound

Ad 3

CAPTION

More consistent draw packages across your book. Prefer a joint walkthrough with the monitoring firm you already trust. Humans still decide.

HEADLINE

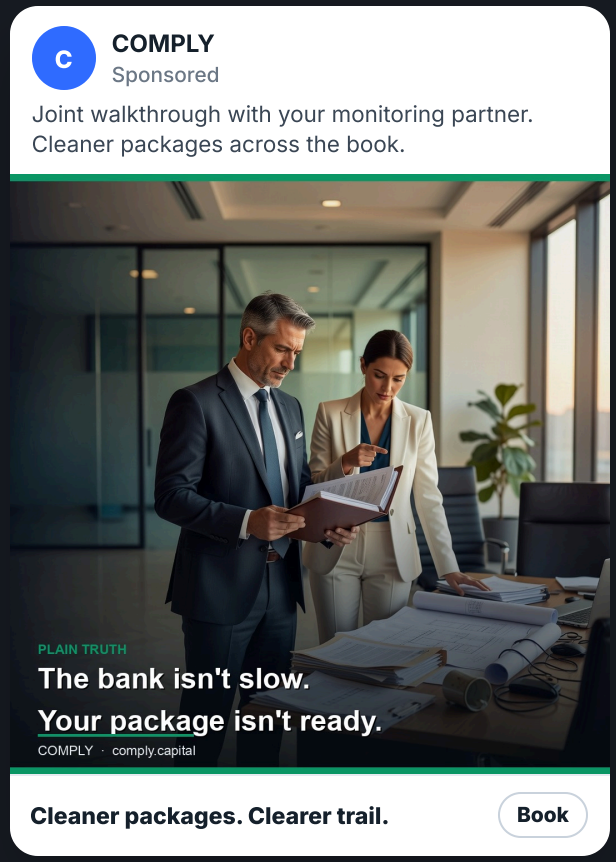

Cleaner packages. Clearer trail.

DESCRIPTION

Joint path with your monitoring partner

BUTTON

BOOK JOINT WALKTHROUGH

What we do · how we keep score · weekly rhythm.

MEASUREMENT

How we'll know it's working

LAYER	WATCH
Awareness	LinkedIn impressions · post reach · Tom/Jerod follows
Growth	ICP connects accepted · newsletter subs · site users
Engagement	CTR · reply rate · walkthrough page views
Conversion	Walkthroughs booked · pilots started · pilot→paid
North star	1–5 live pilots · path to ~20 logos / $480k

FIRST 90 DAYS

Discovery → launch → optimize

Days 1–30 · Align

ALIGN
ICP rules · non-CMAA copy · success metrics

BUILD
Reply.io lists · tracking · walkthrough CTA

CREATE
Ad 1–2 · sequences · newsletter #1

Days 31–60 · Launch

LAUNCH
Cold LI + email sequences · gift ads

POST
2–3×/week · YouTube clips

BOOK
Walkthroughs → first pilots

Days 61–90 · Scale

KILL
Weak copy · double winners

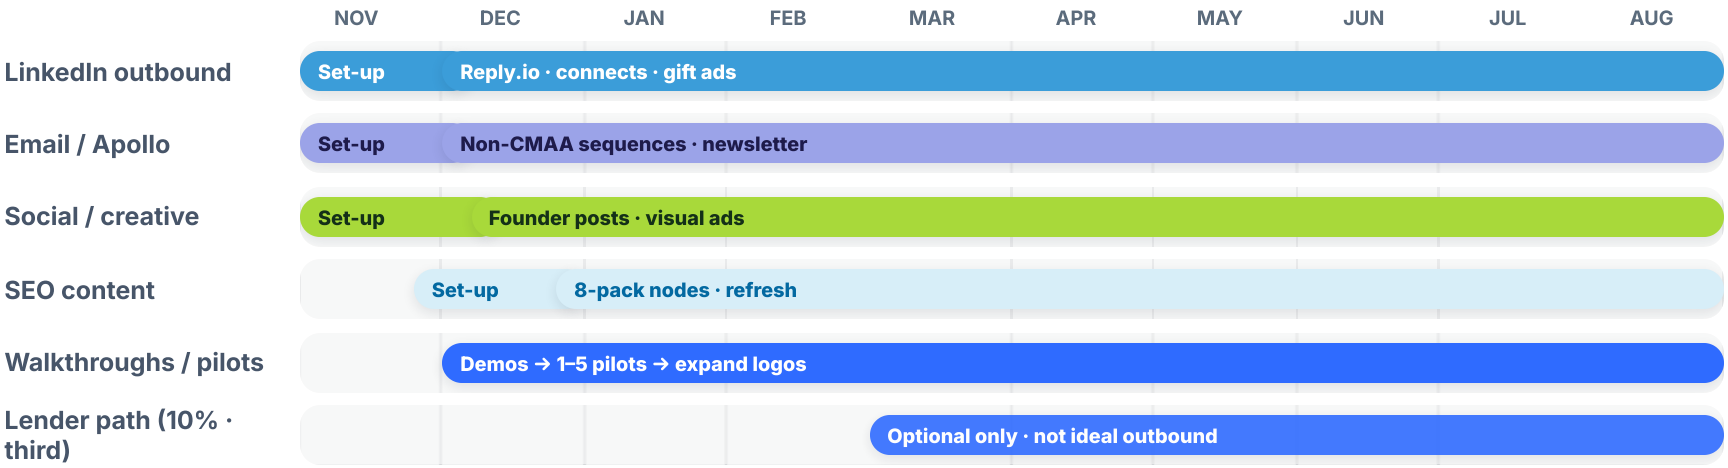

EXPAND
Fit A lookalikes · proof stories

REPORT
Scoreboard + 2027 ROI check-in

12-MONTH BUILD · COLOR = CAMPAIGN

Example long-term roadmap

Start now · keep CMAA as-is · scale non-CMAA outbound + content machine.

Weekly machine (floor)

Tue LinkedIn · Wed Email / Social · Thu walkthroughs · Fri standup · SEO in the background

Align & go

Agree the plan so investors and the team are on the same page.

TEAM ALIGNMENT

What we need to do

Approve

- ICP: consultants 70% · developers 20% · lenders 10% (not ideal outbound)
- Non-CMAA sequence copy
- Ad 1 + Ad 2 creative
- Pilot ~$300/project/mo · walkthrough CTA

Run

- Load Reply.io lists (Apollo + network)
- Keep CMAA track as-is
- Schedule newsletter #1
- Scoreboard: connects · replies · walkthroughs · pilots

Same plan.
Same next steps.

COMPLY

Investors see the path. The team knows who does what this week.
